CROSS-CULTURAL MINISTRIES

Our Cross-Cultural Ministry students learn missiological principles and strategies that influence the development of cross-cultural ministries. They will develop a ministry strategy that prepares them to enter a mission field. Students will be able to equip a church to be actively involved in supporting missions.

In this program, students learn about God's heart for missions. They will be equipped with the tools to share the Bible with those who need to hear it. When they leave, they will have a clear strategy for accomplishing the goal of making disciples cross-culturally.

"I saw other students here and was inspired by their passion for missions. Learning about God's heart for the world showed me I need to have a heart for the world."

Duncan Stevens

When we receive and accept the Love of God, it gives us a great responsibility. We are to take this message and to do something with it. We shouldn't just keep it to ourselves, but we should have a desire to go and make more disciples. We want to share God's love with others so they will choose to follow him.

With classes like Theology of Missions, History of Missions, and Cross Cultural Methods and Strategies, you will learn what it means to be a missionary of Christ's Kingdom. By taking these courses, you will learn the concept of disciple making and Church planting in a cross cultural context. We want to make disciples who make more disciples. We want to plant Churches that will plant Churches, cross culturally.

We are waiting for the fulfilment of the Kingdom of God. That makes it all the more important for us to take on this task of missional ministry so that all the world will know of Christ's great love for us.
